

Welcome to our summer newsletter

We hope this message finds you well and not too frustrated that summer hasn't quite turned up - yet! Since our last newsletter in December, we've been working hard to enhance our services and bring you new solutions, designed to give you more time for what truly matters – patient care.

As a dynamic tech company in the health sector, we understand the challenges you face daily. Our mission remains steadfast: to empower you with innovative tools and technology that streamline your workflow, reduce administrative burdens, and ultimately, allow you more time to focus on delivering exceptional patient care.

In this edition, we're excited to share the latest advancements, success stories from our community, and upcoming features that will revolutionise your lab. Whether you're a long-standing partner or a new customer, we are thrilled to have you with us on this journey towards more efficient and compassionate healthcare.

Thank you for your continued trust and support. Together, we are making a significant impact in the healthcare landscape.

Warm regards,
The X-Lab Team

Welcome to the organisations who have gone live in the last 12 months

- Birmingham Women's & Children's - Labgnostic
- University College London Hospitals NHS Foundation Trust - Neuroimmunology - Labgnostic
- University College London Hospitals NHS Foundation Trust - Neurometabolic - Labgnostic

- Liverpool University Hospitals NHS Foundation Trust - LabReach
- Loughborough Sport - LabReach
- Turning Point - LabReach
- UK NEQAS Haematology - LabgnosticEQA
- NHS Greater Glasgow and Clyde - LabgnosticEQA

Welcome to the organisations who are currently onboarding

- Mater Private - Labgnostic

PinPoint adopts X-Lab's lab-to-lab connectivity solution

Urgent cancer referrals are a priority for the NHS. To provide set levels of care, the NHS is exploring the use of PinPoint: an AI-driven blood test designed to optimise urgent cancer referrals. Using Labgnostic's network, PinPoint is optimising and automating the blood-testing process to provide better care for patients. [Read more](#)

Try for yourself

We are pleased to announce the launch of two new interactive demos for our products, LabgnosticEQA and LabReach. These are designed to give you a hands-on experience, allowing you to explore the features and capabilities firsthand.

Try these demos and see how our solutions can elevate your laboratory's performance. We look forward to your feedback, as we continue to innovate and support your needs.

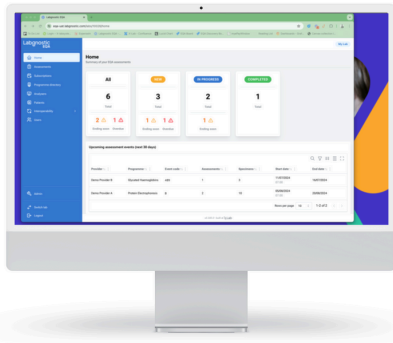

The Beatles, Elton John, Adele, and now X-Lab

X-Lab is aiming to emulate the successes of these great British musicians by taking the US by storm. Leading with our LabgnosticEQA product, we're taking our first plucky steps into this vast marketplace, aiming to replicate their success and presence.
